It's Interest

Concerns that buy their goods on long-time payments have to pay too much. They have to pay interest money. They have to charge it in their prices. If you buy of them you pay it. Imagine it is "quality," "reputation," "style"—any thing you please that makes the extra charge. Fact is, it's interest. You don't have to pay it to me because we buy for cash in large quantities, claim all discounts and reductions, sell for cash, and we give the benefit to the consumer.

Bill to Establish the Institution to Be Introduced in Congress.

IT IS TO BE NONSECTARIAN.

The University Will Be the Outgrowth of More Than One Hundred Years' Agitation, Starting With George Washington, Who Left \$25,000 as a First Endowment—Other Washington News.

WASHINGTON, Dec. 13.—The bill to establish the University of the United States is again to be introduced in both houses of congress. The bill in general terms provides for an institution of the highest possible type, for the graduates of accredited colleges and universities only, with special reference to the work of original research and investigation in all important fields of inquiry. The government is vested in a board of regents and a university council. The board of regents embraces the president of the United States, the chief justice of the United States, the commissioner of education, the secretary of Smithsonian institution, the president of the National Academy of Sciences, the president of the National Educational association, the president of the university and nine other citizens, to be appointed by the president, by and with the advice and consent of the senate. No two of them shall be from the same state.

The university council is to have immediate charge of the work of instruction, research and investigation. It consists of the regents and 12 other members, to be appointed by them from among eminent educators, with a like impartial distribution. All courses and officers of instruction are to be determined by the council, also all regulations governing the internal management of the institution. Neither sectarian nor political preferences in any form are to be allowed, whether in the appointments or in any of the operations of the institution. Authority is given to establish with other institutions of learning such co-operative provisions as are deemed advantageous. Provision is made for the use of what is known as "University square," the site set apart by Washington for university purposes and lately occupied by the naval observatory. Congress is now asked for but enough means to enable the board of regents to organize and practically inaugurate the institution. Gifts and bequests are to be deposited in the United States treasury in trust and invested in bonds of the United States bearing 5 per cent interest.

The present bill is the outgrowth of more than 100 years of agitation. The thought of a national university first came to Washington while commanding the Revolutionary army. Subsequently, as president, he repeatedly urged its establishment, and in his last will and testament left \$25,000 in stocks as a first endowment, the interest to be compounded. Had congress fostered the plan, this sum would now be nearly \$5,000,000.

It is the intention of the national university committee that the government and people shall co-operate in the establishment of the proposed university, and it is intended that the bill shall be pressed to early passage, so that July 9, 1899, the 100th anniversary of Washington's bequest, shall witness at least the practical beginning of what should become the leading university of the world.

General Indian Bill.

WASHINGTON, Dec. 13.—The indications are that congress will pass a general bill for the entire rehabilitation of Indian Territory. The measure, as now planned, is to make it embrace everything that has been sought to be accomplished in the past by the Dawes Indian commission. The bill will cover all the questions of citizenship, allotments of lands, disposition of townsites, mineral

rights, and jurisdiction of the United States courts over the present reservations and other matters bearing on the extinguishment of tribal organization.

National Board of Trade.

WASHINGTON, Dec. 13.—The National Board of Trade met here today to organize for its regular session which opens tomorrow. A number of important matters will be brought up for consideration. The Chicago board of trade will advocate a law to govern the sale and manufacture of mixed flour and the Boston chamber of commerce will advocate a new pooling bill while the work of the monetary commission probably will receive endorsement.

FIGHTING PAXSON.

United Labor League of Philadelphia

Protesting Against His Appointment.

PHILADELPHIA, Dec. 13.—The United Labor league, at a meeting held yesterday afternoon, passed a resolution authorizing the officers of the league to send a protest to President McKinley against the appointment of ex-Chief Justice Paxson as a member of the interstate commerce commission. The grounds for the protest grow out of an opinion rendered by Mr. Paxson when he was chief justice of the supreme court of this state in relation to the Homestead strike. The protest will state that Mr. Paxson's appointment will be an insult, not alone to the organized labor in this city and state, but to every workman in the United States.

Were Not Guilty.

WESSON, Miss., Dec. 13.—The three negroes arrested in the Monticello neighborhood in conjunction with Charley Lewis, the negro lynched for the butchery of the Smith family, were after a long trial last night declared not guilty, but given until today to leave the country.

WHOLESALE EXCOMMUNICATION.

Mrs. Katherine Miller and All Who Attend Her Wedding Under the Ban.

ST. JOSEPH, Mo., Dec. 13.—Religious circles in this city were stirred up yesterday by the public excommunication of Mrs. Charles Miller, formerly Miss Katherine Moriarity, her mother and all relatives and Catholics who participated in her marriage ceremonies and the reception which followed, because the young woman was married by a Protestant minister.

On Thursday of last week Miss Katherine Moriarity was married to Charles A. Miller at the First Presbyterian church, by the Rev. George A. Trenholm. After the marriage services a reception was held at the home of the bride's mother.

MRS. M'KINLEY DEAD

President's Mother Passes Peacefully Away Sunday Morning.

HER CHILDREN ALL PRESENT.

No Sign of Recognition Given to Any Around the Death Bed—Dissolution Announced to the Public by the Telling of a Bell—Arrangements for the Funeral—Delegation From Washington.

CANTON, C., Dec. 13.—Mrs. Nancy A. McKinley, mother of President McKinley, died yesterday morning a few minutes past 2 o'clock. Apparently, she did not suffer during her last moments, but passed from the deep palsied sleep to the sleep of death. The president, and all her family, was at the bedside when the end came. There were no recognitions at the last.

For some hours previous to the dissolution no word could be secured from the house, the knocks of reporters and telegraph messengers remaining unanswered. The first publicity given of the death was when the undertaker was sent for. Shortly after this, following an old custom now almost obsolete, to publicly announce the death, the bell in the tower of the church at which Mother McKinley worshiped tolled off the years of her age.

It is a coincidence that Mrs. McKinley died almost at the same hour her husband died five years ago.

Funeral Arrangements.

Funeral services over the remains of Mrs. Nancy Allison McKinley will be held in the First M. E. church of this city at 1 o'clock tomorrow afternoon. Interment will follow in the West Lawn cemetery, just west of the city; and Tuesday evening President McKinley and wife and officials from Washington who attended the funeral will leave for the capital, reaching there about noon Wednesday. These are the arrangements so far as completed; since the death of Mother McKinley yesterday morning.

It was at first thought by the family that the services would be of a private nature, held at the old homestead. It was soon learned, however, through the pastor of Mrs. McKinley's church, and members of the congregation, as well as from other friends, that the number of friends who desired to pay their last tribute of respect to the beloved woman, by attending the obsequies could not be accommodated with such arrangements and church services were decided upon. The services will be short and simple, consisting of words of comfort and eulogy by the officiating clergyman and the singing of several favorite hymns by the choir.

The First Methodist church, in which the services are to be held, is the one in which Mother McKinley worshipped during her residence in Canton and in which she was found almost every Sunday morning, only serious indisposition or important circumstances keeping her away. Three weeks ago yesterday she was in her pew as usual, and though she was nearly 89 years old, her attendance had been regular all the while.

Will Attend the Funeral.

WASHINGTON, Dec. 13.—All the members of the cabinet whose official duties will permit their leaving Washington at this time will start for Canton this evening to attend the funeral of Mrs. McKinley. The party will include the retiring Alger, Bliss, Wilson and Secretary Sherman, if the latter is feeling well enough to make the trip. Secretaries Long and Gage are detained in Washington by pressing departmental duties. Vice President Hobart will also remain here, his presence being necessary as the presiding officer of the senate. The ladies of the party will be Mrs. McKenna, Mrs. Gary, Mrs. Alger and Mrs. Porter.

Blanco's Condolence.

HAYANA, Dec. 13.—Marshall Blanco has cabled to Senator De Lome, Spanish minister at Washington, a request that he tender Blanco's condolence to President McKinley on the death of Mrs. McKinley, the president's mother.

FATALLY WOUNDED.

Officer Shot in a Scuffle With a Prisoner, Latter Also Shot.

CHICAGO, Dec. 13.—Policeman William J. Coghlan and a Pole named Bazowski, whom the officer was attempting to place under arrest, were both fatally shot yesterday. Coghlan had a warrant for the Pole. He and another officer attempted to serve it. They were resisted and in the melee Coghlan's revolver was discharged, the ball taking effect just above his heart. On the way to the station the prisoner attempted to break away and in a scuffle was shot in exactly the same place as Coghlan. Both men will die.

Disabled Bark.

SAN FRANCISCO, Dec. 13.—The British bark Kilmary, 129 days from New Castle, England, has arrived here. Captain Ferguson reports having sighted an iron bark with her main top mast carried away, on Oct. 7, in lat. 55.44 north; long. 64.35 west. It is possible that the disabled vessel may be the long overdue Taymount or Natuna, and seafaring men are anxiously awaiting news of her identity.

Todd Rearrested.

RICHMOND, Ky., Dec. 13.—Young Rutherford Todd has been rearrested on the charge of murdering Daniel Little. His bond was fixed at \$2,000, which he readily gave. The trial is set for Thursday.

Died Aged 114.

ZANESVILLE, O., Dec. 13.—Mrs. Maria James is dead here at the age of 114 years. She was born in Georgia and is colored. She retained all her faculties until a few months ago.

FOUND A POT OF GOLD.

J. P. McGee, ex-Member of the Illinois Legislature, the Lucky Man.

NEWMAN, Ill., Dec. 13.—J. P. McGee, ex-representative in the state legislature from this district, found a pot of gold on his farm last week. While crossing Bushy Fork river, which runs through his farm, in a boat, he noticed a huge rock on the opposite bank, and a large rock shelf that projected out over the water. On reaching the rock, curiosity caused him to examine the top of the large shelf with one of his boats, and, much to his surprise, a large pot of gold, covered with moss, was raked off into the boat. The exact value of the gold is not known. It is the general supposition that the gold was left there by Indians, whose intention was to return and get it at some future time. Mr. McGee celebrated his find by giving a ball and supper Saturday night, at which over 300 people were present.

ONE WAY OF RAISING IT.

Politician Alleged to Have Confessed to Forgery—Needed Money.

AKRON, O., Dec. 13.—Evan J. West, a prominent politician, has been arrested on a charge of forgery. It is alleged that he forged the names of Judge J. A. Kohler and Judge H. J. Caldwell to orders which he presented to County Auditor Slater. The latter gave him checks for the amounts on the county treasurer. In this way West secured a large amount of money. He made a statement to the auditor in which he admits that he is guilty. He says he has to use money and took the course of securing it. The transactions have been going on for a year.

AN UNDERSTANDING.

England Not to Oppose Germany in Kiaochau in Return for Like Favors.

LONDON, Dec. 13.—The Berlin correspondent of The Daily Mail says he hears that Great Britain agrees not to oppose Germany's occupation of Kiaochau in return for Germany's promise not to interfere in the Egyptian question.

According to a dispatch from Shanghai to the same paper, the Germans are extending the area of occupation at Kiaochau and now control 400 square miles. They have arranged a German administration and are already collecting duties.

ILLICIT DISTILLERS CAPTURED.

Notorious Redden Brothers of West Virginia Rounded Up.

CHARLESTON, W. Va., Dec. 13.—The notorious Redden brothers, who for a number of years have been operating an illicit distillery in Raleigh county, were captured yesterday by United States Marshal Daniel Cunningham and their distillery confiscated. The officers have long been engaged in a search for the base of the Redden brothers' operations. The Reddens have frequently been indicted, but up to date have been successful in evading punishment.

AMERICAN FEDERATION.

The Great National Labor Organization in Session at Nashville.

NASHVILLE, Dec. 13.—The American Federation of Labor, with a full attendance of delegates, met in annual session here this morning. The meeting was called to order in the house of representatives at 10 o'clock. William Amison of Nashville Typographical union delivered the address of welcome, which was responded to by President Gompers. It is said that it is not unlikely the headquarters will go to Cincinnati.

The Track Was Short.

NEW YORK, Dec. 13.—The managers of the 6-day bike contest that was finished Saturday night in Madison Square garden now admit what has been alleged since the second day of the race, that the track was short. Yesterday surveyors went over the course, and, although it was officially announced that the riders had not traveled a full mile for every nine laps, just how short each "mile" was has not been given out. But it is understood the track is 200 feet short to the mile.

People shudder when they think of the possibility of sudden death by violence or accident. There is a sentimental horror attached to such a death that makes people prefer the grim monster in almost any other guise.

An almost unfailing cure for consumption is found in Dr. Pierce's Golden Medical Discovery. It acts directly upon the lungs and also corrects the aggravating cause of the disease. It corrects all disorders of the digestion, invigorates the liver and makes the assimilation of the food perfect, thus nourishing and strengthening the system for its battle with its relentless foe. It fills the arteries with the rich, pure blood of health. It builds new, healthy tissue in the lungs and drives out all impurities and disease germs. It cures 98 per cent. of all cases of consumption. Thousands have testified to their cures. All druggists sell it.

"I was taken sick in February, 1887, with typhoid pneumonia," writes Mrs. Henrietta Hart, of Voorheesville, Albany Co., N. Y. "I then had a miscarriage. I did not leave my bed to sit in a chair till the first of June. I had medical care all that time. I was so weak I could not turn in bed. The doctor said he could do no more for me. I was coughing and raising and was almost dead with consumption. I gave up to die. I took seven bottles of Dr. Pierce's Golden Medical Discovery, and I was then able to do my own housework for my family of four. In less than three years from the time I began your medicine, I gave birth to a healthy baby girl that weighed eight pounds. I have had two children since, and am enjoying good health now."

GORMAN AND MORRISON.

Some Speculation Regarding Their Future.
—No Bar at the Capital.

There is some talk of Senator Gorman attempting to enter the House of Representatives next year. It is said that he will be in the fight, his desire being to become Speaker of that body. From an exterior standpoint Gorman apparently takes his defeat lightly. His face is as calm and inscrutable as ever, and he greets his associates with the same finished air of politeness as of old. Gorman has been a power in the Senate and it remains to be seen whether he is at last down to stay. The yearly story of the retirement of Commissioner Morrison from the Inter-State Commerce Commission, has again made its appearance. It is in its old time form. Mr. Morrison is tired of the routine work of the commission, and thinks longingly of the days when he was a power on the floor. He has listened to the urgings of his friends and will enter the fight for Congress at the next general elections, with the hope if elected, and the Democrats carry the House, that he will be made Speaker. The story will be given the same credence that it has for years past. "Horizontal Bill" Morrison has a good place as head of the commission, and he is to be smart to give up for the uncertain life of a congressman. The capitol is as "dry" as Neal Dow's pantry. Not a drop of liquor is to be found for sale in either the house or senate restaurants. For the first time in years the drinker has to leave the building to be accommodated. And every good citizen accords with this view. The bars at the capitol paid no tax, municipal or otherwise. Every saloon in Washington has to pay a yearly tax of \$400, and yet liquor was sold to the soldiers on the hill absolutely free of municipal taxation. The temperance people have urged the abolishment of this evil for some time and it is hoped that it has been done away with for good and forever.

To hear democrats talk one might suppose that no trust or combines existed when Grover Cleveland dwelt in the White House.

Mother McKinley who had been lingering at death's door for ten days died at an early hour Sunday morning. The funeral services will be held Tuesday afternoon.

It is not the principle of the civil service law that is wrong. To be sure the law as it is, is not perfect, but the great trouble has been with the wrong administration of the law in so many cases.

Last year the free silver democrats were in favor of combines and therefore fused with the populists. The populists were the first to become dissatisfied and were not slow in stating their dissatisfaction. Their public utterances convinced the democrats of the alliance that fusion was mighty bad politics.

At Ashland, Wisconsin, a verdict for \$5,000 was rendered against the Ashland Water Company in favor of Mrs. Julia Green, on the ground that her husband died of typhoid fever, the result of using water supplied by the company. The decision will attract widespread attention and will serve as a warning to water companies to avoid supplying water that is polluted and unfit for use.

At Ashland, Wisconsin, a verdict for \$5,000 was rendered against the Ashland Water Company in favor of Mrs. Julia Green, on the ground that her husband died of typhoid fever, the result of using water supplied by the company. The decision will attract widespread attention and will serve as a warning to water companies to avoid supplying water that is polluted and unfit for use.

POLITICAL BREVITIES.

W. W. Hauk, of Terre Haute, will be a candidate for state auditor before the republican state convention. He was a formidable candidate in 1894.

Lincoln Dixon is in the field to secure the democratic chairmanship of the Fourth district. There will probably be other candidates before Jan. 11.

There were a number of aspiring Jackson county democrats on the streets of Seymour Saturday. They were urging their friends to urge them to be candidates for county office.

Hugh McMullen, of Aurora, William R. Jenson, of Lawrenceburg, and K. M. Hord, of Shelbyville, are spoken of as probable candidates before the democratic State Convention for supreme judgeship nomination.

ATHLETE AND SCULPTOR.

A Tale of James E. Kelly's Powers, as Related by a Friend.

Although he is not large physically, several good stories are told about the prowess of James E. Kelly, the sculptor whose bronze statues of Molly Pitcher, General Buford at Gettysburg, "The Battle of Harlem Heights" and "Sheridan's Ride" have brought him fame. A friend of his said of him:

"He has more courage to the square inch than any man of his size I know, and on several occasions he has been called upon to show it unexpectedly."

"One day an expressman, six feet high and strong in proportion, invaded his studio. The expressman had overcharged the sculptor, and the latter desired to refer the matter to the main office. When the irate expressman entered, it happened that a tall friend of the artist was visiting the studio. With an oath the expressman said that he had come for satisfaction."

"I intend to smash you to smithereens," he ejaculated, shaking his fist and advancing toward the sculptor.

"Do not wait a moment," answered Kelly.

"The big man sprang at the artist, and at this critical moment the tall form of the latter's friend vanished through the back door. Quick as a flash the sculptor jumped behind the enraged expressman, seized him by the back of the neck, and with all the strength he could summon pushed the burly fellow to the front door and kicked him into the street. It was all done so quickly that the bellicose intruder hardly knew how it happened. He fell on the sidewalk, and his face was bruised. He got up and ran away. The sculptor returned to his work, and after a few minutes his vanishing friend entered timidly from the rear."

"What have you done with that Goliath?" he asked. "You know I have heart trouble and cannot stand scenes, and so I went out to keep calm."

"Oh, there was no scene," replied the sculptor. "It was an act in three kicks and a push." His heart trouble friend to this day thinks the sculptor is a piece of surcharged dynamite."

LAW INVALID.

Ohio Act Which Assessed Arbitrary Damages For Assault by a Mob.

CLEVELAND, Dec. 13.—The law giving damages to persons assaulted or killed by mobs has been declared unconstitutional by the circuit court in the case of J. W. Caldwell against the county.

Caldwell claimed \$1,000 because he was injured by a mob during the Brown strike. The act fixed the damages arbitrarily at \$500 for an assault, \$1,000 for serious injury and \$5,000 for death. The court declared that when a man was injured, but not seriously enough to be entitled to \$1,000, the act in effect made him a present of the difference between his just dues and \$1,000. The legislature, the court said, would not authorize taxes for purposes of making presents.

THE AMERICAN MONTHLY REVIEW OF REVIEWS

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, the economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five continents; the contributed articles furnish the character sketches of the man of the month, and give timely discussions by authorities on any question of immediate serious import.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged in the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable"; "is simply invaluable"; "is a generous library in itself"; "is a historical encyclopedia of the world"; "the best means of aid for a busy man"; "the best periodical of the kind we have ever had"; "a triumph of editorial genius"; "the world under a field-glass," etc., etc.

McCLURE'S MAGAZINE

FOR THE COMING YEAR

Some Notable Features

CHAS. A. DANA'S REMINISCENCES
These reminiscences contain more unpublished war history than any other book except the Government publications. Mr. Dana was intimately associated with Lincoln, Stanton, Grant, Sherman, and the other great men of the Civil War. He had the confidence of the President and his great War Secretary, and he was sent on many private missions to make important investigations in the army. Lincoln called him "The Eyes of the Government at the Front." Everywhere through these memoirs are bits of vivid history and fresh recollections of great men. These Reminiscences, which now contain over 3,000 negatives of almost priceless value. The Christmas McClure's contains a complete Short Story by Rudyard Kipling entitled "The Tomb of His Ancestors," the tale of a clouded Tiger, an officer in the Indian army, and a rebellious tribe. We have in hand also a New Ballad, a powerful, grim, moving song of War Ships. It will be superbly illustrated. Mr. Kipling will be a frequent contributor.

ANTHONY HOPE'S NEW ZENDA NOVEL
Rudyard Kipling, Robert Barr, William Allen White, Ian MacLaren, Oliver Thorne, Stephen Crane, and many other of the best story writers in the world, will contribute to McClure's during the coming year.

EDISON'S LATEST ACHIEVEMENT
Fifty years, by the most competent authority living, is a narrative of the life of the great inventor, from his boyhood to the present. It is a story of the life of a man who has changed the world, and is as vivid and dramatic as a piece of fiction.

THE CUSTER MASSACRE
The account of this terrible fight written down by Hamlin Garland as it came from the lips of Two Montis, an old Indian Chief who was a participant in it.

MARK TWIN
Mark Twain contributes an article in his old manner, describing his voyage from India to South Africa. The illustrations are by A. B. Frost and Peter Newell, and are as droll and humorous as the article itself. Another: His Ballroom and his Expedition, from materials furnished by the brother of Mr. Stripling, André's companion. *Some Ideas in Unexplored Asia*, a story of remarkable adventure and endurance. *London in the Far North*. The famous explorer writes of the years he lived in regions far north of the boundaries of human habitation.

NANSEN
The great Arctic explorer has written an article on the possibilities of reaching the North Pole: on the methods that the next expedition should adopt, and the knowledge to be gained by an expedition; concerning the climate, the ocean currents, depths and temperatures of the water, etc. This knowledge will be of the greatest value to science.

The best artists and illustrators are making pictures for McClure's Magazine. A. B. Frost, Peter Newell, C. D. Gilson, Howard Dyle, Knyen Gae, C. K. Linson, W. D. Stevens, Alfred Brennan, and others.

ILLUSTRATIONS

The November Number will be given free with new subscriptions. This number contains the opening chapters of Dana's Reminiscences, Mark Twain's Voyage from India to South Africa, the account of Edison's great invention, and a mass of interesting matter and illustrations.

Two Pained Questions Answered.

What is the use of making making a better article than your competitor if you can not get a better price for it? Ans.—As there is no difference in the price the public will buy only the better, so that while our profits may be smaller on a single sale they will be much greater in the aggregate.

How can you get the public to know your make is the best?

If both articles are brought prominently before the public both are certain to be tried and the public will very quickly pass judgment on them and use only the better one.

This explains the large sale on Chamberlain's Cough Remedy. The people have been using it for years and have found that it can always be depended upon. They may occasionally take up with some fashionable novelty put forth with exaggerated claims, but are certain to return to the one remedy that they know to be reliable, and for coughs, colds and croup there is nothing equal to Chamberlain's Cough Remedy. For sale by C. W. Milhous.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty four hours; a sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, but sent free by mail. Mention the REPUBLICAN and send your address to Kilmer & Co., Binghamton, N. Y. Ten priors of this paper prove the eminence of this offer.

GORMAN AND MORRISON.

Some Speculation Regarding Their Future.
—No Bar at the Capital.

There is some talk of Senator Gorman attempting to enter the House of Representatives next year. It is said that he will be in the fight, his desire being to become Speaker of that body. From an exterior standpoint Gorman apparently takes his defeat lightly. His face is as calm and inscrutable as ever, and he greets his associates with the same finished air of politeness as of old. Gorman has been a power in the Senate and it remains to be seen whether he is at last down to stay. The yearly story of the retirement of Commissioner Morrison from the Inter-State Commerce Commission, has again made its appearance. It is in its old time form. Mr. Morrison is tired of the routine work of the commission, and thinks longingly of the days when he was a power on the floor. He has listened to the urgings of his friends and will enter the fight for Congress at the next general elections, with the hope if elected, and the Democrats carry the House, that he will be made Speaker. The story will be given the same credence that it has for years past. "Horizontal Bill" Morrison has a good place as head of the commission, and he is so intelligent and smart to give up for the uncertain life of a congressman. The capitol is as "dry" as Neal Dow's pinty. Not a drop of liquor is to be found for sale in either the house or senate restaurants. For the first time in years the drinker has to leave the building to be accommodated. And every good citizen accords with this view. The bars at the capitol paid no tax, municipal or otherwise. Every saloon in Washington has to pay a yearly tax of \$400, and yet liquor was sold to the soldiers on the hill absolutely free of municipal taxation. The temperance people have urged the abolishment of this evil for some time and it is hoped that it has been done away with for good and forever.

Washington, Dec. 13.
To hear democrats talk one might suppose that no trust or combines existed when Grover Cleveland dwelt in the White House.

Mother McKinley who had been lingering at death's door for ten days died at an early hour Sunday morning. The funeral services will be held Tuesday afternoon.

It is not the principle of the civil service law that is wrong. To be sure the law as it is, is not perfect, but the great trouble has been with the wrong administration of the law in so many cases.

Last year the free silver democrats were in favor of combines and therefore fused with the populists. The populists were the first to become dissatisfied and were not slow in stating their dissatisfaction. Their public utterances convinced the democrats of the alliance that fusion was mighty bad politics.

At Ashland, Wisconsin, a verdict for \$5,000 was rendered against the Ashland Water Company in favor of Mrs. Julia Green on the ground that her husband died of typhoid fever, the result of using water supplied by the company. The decision will attract widespread attention and will serve as a warning to water companies to avoid supplying water that is polluted and unfit for use.

POLITICAL BREVITIES.

W. W. Hauk, of Terre Haute, will be a candidate for state auditor before the republican state convention. He was a formidable candidate in 1894.

Lincoln Dixon is in the field to secure the democratic chairmanship of the Fourth district. There will probably be other candidates before Jan. 11.

There were a number of aspiring Jackson county democrats on the streets of Seymour Saturday. They were urging their friends to urge them to be candidates for county office.

Hugh McMullen, of Aurora, William R. Jonson, of Lawrenceburg, and K. M. Hord, of Shelbyville, are spoken of as probable candidates before the democratic State Convention for supreme judgeship nomination.

ATHLETE AND SCULPTOR.

A Tale of James E. Kelly's Powers, as Related by a Friend.

Although he is not large physically, several good stories are told about the prowess of James E. Kelly, the sculptor whose bronze statues of Molly Pitcher, General Buford at Gettysburg, "The Battle of Harlem Heights" and "Sheridan's Ride" have brought him fame. A friend of his said of him:

"He has more courage to the square inch than any man of his size I know, and on several occasions he has been called upon to show it unexpectedly."

"One day an expressman, six feet high and strong in proportion, invaded his studio. The expressman had overcharged the sculptor, and the latter desired to refer the matter to the main office. When the irate expressman entered, it happened that a tall friend of the artist was visiting the studio. With an oath the expressman said that he had come for satisfaction."

"I intend to smash you to smithereens," he ejaculated, shaking his fist and advancing toward the sculptor.

"Do not wait a moment," answered Kelly.

"The big man sprang at the artist, and at this critical moment the tall form of the latter's friend vanished through the back door. Quick as a flash the sculptor jumped behind the enraged expressman, seized him by the back of the neck, and with all the strength he could summon pushed the burly fellow to the front door and kicked him into the street."

It was all done so quickly that the heliocyte intruder hardly knew how it happened. He fell on the sidewalk, and his face was bruised. He got up and ran away. The sculptor returned to his work, and after a few minutes his vanishing friend entered timidly from the rear.

"What have you done with that Goliath?" he asked. "You know I have heart trouble and cannot stand scenes, and so I went out to keep calm."

"Oh, there was no scene," replied the sculptor. "It was an act in three kicks and a push. His heart trouble friend to this day thinks the sculptor is a piece of surcharged dynamite."—New York Commercial.

LAW INVALID.

Ohio Act Which Assessed Arbitrary Damages For Assault by a Mob.

CLEVELAND, Dec. 13.—The law giving damages to persons assaulted or killed by mobs has been declared unconstitutional by the circuit court in the case of J. W. Caldwell against the county.

Caldwell claimed \$1,000 because he was injured by a mob during the Brown strike. The act fixed the damages arbitrarily at \$500 for an assault, \$1,000 for serious injury and \$5,000 for death. The court declared that when a man was injured, but not seriously enough to be entitled to \$1,000, the act in effect made him a present of the difference between his just dues and \$1,000. The legislature, the court said, would not authorize taxes for purposes of making presents.

THE AMERICAN MONTHLY REVIEW OF REVIEWS

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, the economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five continents; the contributed articles furnish the character sketches of the man of the month, and give timely discussions by authorities on any question of immediate serious import.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged in the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable," "is simply invaluable," "is a generous library in itself," "is a historical cyclopedia of the world," "the best means of aid for a busy man," "the best periodical of the kind we have ever had," "a triumph of editorial genius," "the world under a field-glass," etc., etc.

CHAS. A. DANA'S REMINISCENCES
These reminiscences contain more unpublished war history than any other book except the Government publications. Mr. Dana was intimately associated with Lincoln, Stanton, Grant, Sherman, and the other great men of the Civil War. He had the confidence of the President and his great War Secretary, and he was sent on many private missions to make important investigations in the army. Lincoln called him "The Eyes of the Government at the Front." Everywhere through these reminiscences are bits of Secret History and Fresh Revelations of Great Men. These Reminiscences will be illustrated with many rare and unpublished War Photographs from the Government collection, which now contains over 8,000 negatives of almost priceless value.

Coryell's Trial.
The case of Frank Coryell, indicted for the murder of Mrs. Ellen Banks, will be called at Columbus next Thursday. The defense is preparing to make a strong fight for Coryell. His interests will be looked after by D. A. Kochenour and Lewis & Lewis. The state will be represented by T. M. Honan and W. H. Shes, the prosecutor at Columbus.

Two Pointed Questions Answered.
What is the use of making making a better article than your competitor if you can not get a better price for it? Ans.—As there is no difference in the price the public will buy only the better, so that while our profits may be smaller on a single sale they will be much greater in the aggregate.

How can you get the public to know your make is the best? If both articles are brought prominently before the public both are certain to be tried and the public will very quickly pass judgment on them and use only the better one.

This explains the large sale on Chamberlain's Cough Remedy. The people have been using it for years and have found that it can always be depended upon. They may occasionally take up with some fashionable novelty put forth with exaggerated claims, but are certain to return to the one remedy that they know to be reliable and for coughs, colds and croup there is nothing equal to Chamberlain's Cough Remedy. For sale by C. W. Milhous.

ONE OF TWO WAYS.
The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of her disease. CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble or some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; a sediment or settling indicates kidney or bladder trouble. The mild and extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At drug stores fifty cents and one dollar. You may have a sample bottle and pamphlet, but sent free by mail. Mention the R. E. Kilmer and send your address to R. E. Kilmer & Co., Binghamton, N. Y. T. Bill to Establish the Institution to Be Introduced in Congress.

IT IS TO BE NONSECTARIAN.

The University Will Be the Outgrowth of More Than One Hundred Years' Agitation, Starting With George Washington, Who Left \$25,000 as a First Endowment—Other Washington News.

WASHINGTON, Dec. 13.—The bill to establish the University of the United States is again to be introduced in both houses of congress. The bill in general terms provides for an institution of the highest possible type, for the graduates of accredited colleges and universities only, with special reference to the work of original research and investigation in all important fields of inquiry. The government is vested in a board of regents and a university council. The board of regents embraces the president of the United States, the chief justice of the United States, the commissioner of education, the secretary of the Smithsonian institution, the president of the National Academy of Sciences, the president of the National Educational association, the president of the university and nine other citizens, to be appointed by the president, by and with the advice and consent of the senate. No two of them shall be from the same state.

The university council is to have immediate charge of the work of instruction, research and investigation. It consists of the regents and 12 other members, to be appointed by them from among eminent educators, with a like impartial distribution. All courses and officers of instruction are to be determined by the council, also all regulations governing the internal management of the institution. Neither sectarian nor political preferences in any form are to be allowed, whether in the appointments or in any of the operations of the institution. Authority is given to establish such co-operative relations as are deemed advantages. Provision is made for the use of what is known as "University square," the site set apart by Washington for university purposes and lately occupied by the naval observatory. Congress is now asked for but enough means to enable the board of regents to organize and practically inaugurate the institution. Gifts and bequests are to be deposited in the United States treasury in trust and invested in bonds of the United States bearing 3 per cent interest.

The present bill is the outgrowth of more than 100 years of agitation. The thought of a national university first came to Washington while commanding the Revolutionary army. Subsequently, as president, he repeatedly urged its establishment, and in his last will and testament left \$25,000 in stocks as a first endowment, the interest to be compounded. Had congress fostered the plan, this sum would now be nearly \$5,000,000.

It is the intention of the national university committee that the government and people shall co-operate in the establishment of the proposed university, and it is intended that the bill shall be pressed to early passage, so that July 9, 1899, the 100th anniversary of Washington's birth, shall witness at least the practical beginning of what should become the leading university of the world.

General Indian Bill.
WASHINGTON, Dec. 13.—The indications are that congress will pass a general bill for the entire rehabilitation of Indian Territory. The measure, as now planned, is to make it embrace everything that has been sought to be accomplished in the past by the Dawes Indian commission. The bill will cover all the questions of citizenship, allotments of lands, disposition of townsites, mineral

MRS. M'KINLEY DEAD

President's Mother Passes Peacefully Away Sunday Morning.

HER CHILDREN ALL PRESENT.

No Sign of Recognition Given to Any Around the Death Bed—Dissolution Announced to the Public by the Telling of a Bell—Arrangements for the Funeral—Delegation From Washington.

CANTON, O., Dec. 13.—Mrs. Nancy A. McKinley, mother of President McKinley, died yesterday morning a few minutes past 2 o'clock. Apparently, she did not suffer during her last moments, but passed from the deep palsied sleep to the sleep of death. The president, and all her family, was at the bedside when the end came. There were no recognitions at the last.

For some hours previous to the dissolution no word could be secured from the house, the knocks of reporters and telegraph messengers remaining unanswered. The first publicity given of the death was when the undertaker was sent for. Shortly after this, following an old custom now almost obsolete, to publicly announce the death, the bell in the tower of the church at which Mother McKinley worshipped tolled off the years of her age.

It is a coincidence that Mrs. McKinley died almost at the same hour her husband died five years ago.

Funeral Arrangements.

Funeral services over the remains of Mrs. Nancy Allison McKinley will be held in the First M. E. church of this city at 1 o'clock tomorrow afternoon. Interment will follow in the West Lawn cemetery, just west of the city; and Tuesday evening President McKinley and wife and officials from Washington who attended the funeral will leave for the capital, reaching there about noon Wednesday. These are the arrangements so far as completed; since the death of Mother McKinley yesterday morning.

It was at first thought by the family that the services would be of a private nature, held at the old homestead. It was soon learned, however, through the pastor of Mrs. McKinley's church, and members of the congregation, that the number of friends who desired to pay their last tribute of respect to the beloved woman, by attending the obsequies could not be accommodated with such arrangements and church services were decided upon. The services will be short and simple, consisting of words of comfort and eulogy by the officiating clergyman and the singing of several favorite hymns by the choir.

The First Methodist church, in which the services are to be held, is the one in which Mother McKinley worshipped during her residence in Canton and in which she was found almost every Sunday morning, only serious indisposition or important circumstances keeping her away. Three weeks ago yesterday she was in her pew as usual, and though she was nearly 80 years old, her attendance had been regular all the while.

Will Attend the Funeral.

WASHINGTON, Dec. 13.—All the members of the cabinet whose official duties will permit their leaving Washington at this time will start for Canton this evening to attend the funeral of Mrs. McKinley. The party will include the secretary of the treasury, Mr. Wilson, and Attorney General McKenna and Secretary Sherman, if the latter is feeling well enough to make the trip. Secretaries Long and Gage are detained in Washington by pressing departmental duties. Vice President Hobart will also remain here, his presence being necessary as the presiding officer of the senate. The ladies of the party will be Mrs. McKenna, Mrs. Gary, Mrs. Alger and Mrs. Porter.

Blanco's Condolence.
HAVANA, Dec. 13.—Marshall Blanco has cabled to Senor De Lome, Spanish minister at Washington, a request that he tender Blanco's condolence to President McKinley on the death of Mrs. McKinley, the president's mother.

FATALLY WOUNDED.

Officer Shot in a Scuffle With a Prisoner. Latter Also Shot.

CHICAGO, Dec. 13.—Policeman William J. Coghlan and a Pole named Bazowski, whom the officer was attempting to place under arrest, were both fatally shot yesterday. Coghlan had a warrant for the Pole. He and another officer attempted to serve it. They were resisted and in the melee Coghlan's revolver was discharged, the ball taking effect just above his heart. On the way to the station the prisoner attempted to break away and in a scuffle was shot in exactly the same place as Coghlan. Both men will die.

Disabled Bark.

SAN FRANCISCO, Dec. 13.—The British bark Kilmarly, 129 days from New Castle, England, has arrived here. Captain Ferguson reports having sighted an iron bark with her main top mast carried away, on Oct. 7, in lat. 55.44 north; long. 64.35 west. It is possible that the disabled vessel may be the long overdue Taymount or Natuna, and seafaring men are anxiously awaiting news of her identity.

Todd Rearrested.

RICHMOND, Ky., Dec. 13.—Young Rutherford Todd has been rearrested on the charge of murdering Daniel Little. His bond was fixed at \$2,000, which he readily gave. The trial is set for Thursday.

FOUND A POT OF GOLD.

J. P. McGee, ex-Member of the Illinois Legislature, the Lucky Man.

NEWMAN, Ills., Dec. 13.—J. P. McGee, ex-representative in the state legislature from this district, found a pot of gold on his farm last week. While crossing Bushy Fork river, which runs through his farm, in a boat, he noticed a huge rock on the opposite bank, and a large rock shelf that projected out over the water. On reaching the rock, curiosity caused him to examine the top of the large shelf with one of his boats, and, much to his surprise, a large pot of gold, covered with moss, was raked off into the boat. The exact value of the gold is not known. It is the general supposition that the gold was left there by Indians, whose intention was to return and get it at some future time. Mr. McGee celebrated his find by giving a ball and supper Saturday night, at which over 300 people were present.

ONE WAY OF RAISING IT.

Politician Alleged to Have Confessed to Forgery—Needed Money.

AKRON, O., Dec. 13.—Evan J. West, a prominent politician, has been arrested on a charge of forgery. It is alleged that he forged the names of Judge J. A. Kohler and Judge H. J. Caldwell to order which he presented to County Auditor Sisler. The latter gave him checks for the amounts on the county treasurer. In this way West secured a large amount of money. He made a statement to the auditor in which he admits that he is guilty. He says he had to have money and took this course of securing it. The transactions have been going on for a year.

AN UNDERSTANDING.

LONDON, Dec. 13.—The Berlin correspondent of The Daily Mail says he hears that Great Britain agrees not to oppose Germany's occupation of Kiaochau in return for Germany's promise not to interfere in the Egyptian question.

According to a dispatch from Shanghai to the same paper, the Germans are extending the area of occupation at Kiaochau and now control 400 square miles. They have arranged a German administration and are already collecting duties.

ILLICIT DISTILLERS CAPTURED.

Notorious Redden Brothers of West Virginia Rounded Up.

CHARLESTON, W. Va., Dec. 13.—The notorious Redden brothers, who for a number of years have been operating an illicit distillery in Raleigh county, were captured yesterday by United States Marshal Daniel Cunningham and their distillery confiscated. The officers have long been engaged in a search for the base of the Redden brothers' operations. The Reddens have frequently been indicted, but up to date have been successful in evading punishment.

AMERICAN FEDERATION.

The Great National Labor Organization in Session at Nashville.

NASHVILLE, Dec. 13.—The American Federation of Labor, with a full attendance of delegates, met in annual session here this morning. The meeting was called to order in the house of representatives at 10 o'clock. William Amison of Nashville Typographical union delivered the address of welcome, which was responded to by President Gompers. It is said that it is not unlikely the headquarters will go to Cincinnati.

The Track Was Short.

NEW YORK, Dec. 13.—The managers of the 6-day bike contest that was finished Saturday night in Madison Square garden now admit what has been alleged since the second day of the race, that the track was short. Yesterday surveyors went over the course, and, although it was officially announced that the riders had not traveled a full mile for every nine laps, just how short each "mile" was has not been given out. But it is understood the track is 300 feet short to the mile.

People Shudder.

When they think of the possibility of sudden death by violence or accident. There is a sentimental horror attached to such a death that makes people shudder. It attacks people in all the walks of life. It makes no distinctions. It has for centuries been considered incurable. It is not.

An almost unfailing cure for consumption is found in Dr. Pierce's Golden Medical Discovery. It acts directly upon the lungs and also corrects the aggravating cause of the disease. It corrects all disorders of the digestion, invigorates the liver and makes the assimilation of the food perfect, thus nourishing and strengthening the system for its battle with its relentless foe. It fills the arteries with the rich, pure blood of health. It builds new, healthy tissue in the lungs and drives out all impurities and disease germs. It cures 98 per cent. of all cases of consumption. Thousands have testified to their cures. All druggists sell it.

"I was taken sick in February, 1887, with typhoid pneumonia," writes Mrs. Henrietta Hart, of Voorheesville, Albany Co., N. Y. "I then had a miscarriage. I did not leave my bed for six months. I had medical care all that time. I was so weak I could not turn in bed alone. The doctor said he could do no more for me. I was coughing and raising and was almost dead with consumption. I gave up to die. I took Dr. Pierce's Golden Medical Discovery and 'Favorite Prescription' together (not seven of each), and I was then able to do my own housework for my family of four. In less than three years from the time I began your medicine, I gave birth to a healthy baby girl that weighed eight pounds. I have had two children since, and an enjoying good health now."

Pretty eyes, bright, snappy and full of fire and life. Constipation makes the blood impure, and the eyes get dull and heavy. It builds new, healthy tissue in the lungs and drives out all impurities and disease germs. They never gripe. They are tiny, anti-bilious, sugar-coated granules. One is a gentle laxative, two a mild cathartic. Druggists sell them.

Willett says he would kill himself but for his wife and child. He fears personal violence in case of his return.

Headend Collision Between a Passenger and a Freight Train.

BLOOMINGTON, Ind., Dec. 13.—A head-end collision occurred near the station in this city Saturday night in which four people were seriously injured. MINER'S ULTIMATUM.

Coal Company Notified That All Their Men Will Be Called Out.

BRAZIL, Ind., Dec. 13.—The miners who struck several days ago in one of the Crawford mines because Superintendent Risher, of the company, refused to discharge a nonunion man, are still out. A committee of miners called on Risher late Saturday and informed him that unless he settled at once with the strikers, all the men employed in the Crawford Coal company's mines here would be called out. Mr. Risher refused to counsel with them.

Brutal Murder Recalled.

FAIRMOUNT, Ind., Dec. 13.—The recent sentence of Charles Cowgill to the Indiana reformatory for larceny recalls one of the most brutal murders ever committed within the borders of Grant county. Cowgill, when only 16 years old, was arrested for killing Zachariah Little while the man was out hunting, but for some reason Cowgill was never brought to trial, and the robbed and murdered man went unavenged. That was three years ago. Since then Cowgill has served two years.

Whippingpost at Evansville.

EVANSVILLE, Ind., Dec. 13.—Police Judge Winfrey of this city has established a whippingpost for boys in the county jail. When a boy is convicted the judge calls in the father and gives him the privilege of paying the boy's fine, having him sent to the workhouse or having him whipped. The parent usually decides on the whipping. The punishment is laid on by the parent in the presence of the court.

Plans of Insurgents.

HAVANA, Dec. 13.—The plans of the insurgents to strike a blow near the city have been checked, according to the official account, but the concentration of their forces is such as to make it unlikely that the insurgent hands will surrender, as the Spanish authorities have been hoping. The business concerns of the city are much discouraged by the actual situation. They do not now look forward to a speedy end of the revolution. All say that they have abandoned the hope that the insurgents will surrender or accept the conditions of autonomy.

He left the house that evening and has not been seen since. Recently he admitted to friends that he was short in his accounts with the government and secured some money to help him settle. GORMAN AND MORRISON.

Some Speculation Regarding Their Future.
—No Bar at the Capital.

There is some talk of Senator Gorman attempting to enter the House of Representatives next year. It is said that he will be in the fight, his desire being to become Speaker of that body. From an exterior standpoint Gorman apparently takes his defeat lightly. His face is as calm and inscrutable as ever, and he greets his associates with the same finished air of politeness as of old. Gorman has been a power in the Senate and it remains to be seen whether he is at last down to stay. The yearly story of the retirement of Commissioner Morrison from the Inter-State Commerce Commission, has again made its appearance. It is in its old time form. Mr. Morrison is tired of the routine work of the commission, and thinks of the days when he was a power on the floor. He has listened to the urgings of his friends and will enter the fight for Congress at the next general elections, with the hope if elected, and the Democrats carry the House, that he will be made Speaker. The story will be given the same credence that it has for years past. "Horizontal Bill" Morrison has a good place as head of the commission, and he is too intelligent to give up for the uncertain life of a congressman. The capitol is as "dry" as Neal Dow's pantry. Not a drop of liquor is to be found for sale in either the house or senate restaurants. For the first time in years the drinker has to leave the building to be accommodated. And every good citizen accords with this view. The bars at the capitol paid no tax, municipal or otherwise. Every saloon in Washington has to pay a yearly tax of \$400, and yet liquor was sold to the soldiers on the hill absolutely free of municipal taxation. The temperance people have urged the abolishment of this evil for some time and it is hoped that it has been done away with for good and forever.

Washington, Dec. 13.
To hear democrats talk one might suppose that no trust or combine existed when Grover Cleveland dwelt in the White House.
MOTHER MCKINLEY who had been lingering at death's door for ten days died at an early hour Sunday morning. The funeral services will be held Tuesday afternoon.
It is not the principle of the civil service law that is wrong. To be sure the law as it is, is not perfect, but the great trouble has been with the wrong administration of the law in so many cases.
Last year the free silver democrats were in favor of combines and therefore fused with the populists. The populists were the first to become dissatisfied and were not slow in stating their dissatisfaction. Their public utterances convinced the democrats of the alliance that fusion was mighty bad politics.

At Ashland, Wisconsin, a verdict for \$5,000 was rendered against the Ashland Water Company in favor of Mrs. Julia Green, on the ground that her husband died of typhoid fever, the result of using water supplied by the company. The decision will attract widespread attention and will serve as a warning to water companies to avoid supplying water that is polluted and unfit for use.

POLITICAL BREVITIES.

W. W. Hauck, of Terre Haute, will be a candidate for state auditor before the republican state convention. He was a formidable candidate in 1894.

Lincoln Dixon is in the field to secure the democratic chairmanship of the Fourth district. There will probably be other candidates before Jan. 11.

There were a number of aspiring Jackson county democrats on the streets of Seymour Saturday. They were urging their friends to urge them to be candidates for county office.

Hugh McMullen, of Aurora, William R. Jenson, of Lawrenceburg, and K. M. Hord, of Shelbyville, are spoken of as probable candidates before the democratic State Convention for supreme judgeship nomination.

ATHLETE AND SCULPTOR.

A Tale of James E. Kelly's Powers, as Related by a Friend.

Although he is not large physically, several good stories are told about the prowess of James E. Kelly, the sculptor whose bronze statues of Molly Pitcher, General Buford at Gettysburg, "The Battle of Harlem Heights" and "Sheridan's Ride" have brought him fame. A friend of his said of him:

"He has more courage to the square inch than any man of his size I know, and on several occasions he has been called upon to show it unexpectedly."

"One day an expressman, six feet high and strong in proportion, invaded his studio. The expressman had overcharged the sculptor, and the latter desired to refer the matter to the main office. When the irate expressman entered, it happened that a tall friend of the artist was visiting the studio. With an oath the expressman said that he had come for satisfaction."

"I intend to smash you to smithereens," he ejaculated, shaking his fist and advancing toward the sculptor.

"Do not wait a moment," answered Kelly.

"The big man sprang at the artist, and at this critical moment the tall form of the latter's friend vanished through the back door. Quick as a flash the sculptor jumped behind the enraged expressman, seized him by the back of the neck, and with all the strength he could summon pushed the burly fellow to the front door and kicked him into the street. It was all done so quickly that the bellicose intruder hardly knew how it happened. He fell on the sidewalk, and his face was bruised. He got up and ran away. The sculptor returned to his work, and after a few minutes his vanishing friend entered timidly from the rear."

"What have you done with that Goliath?" he asked. "You know I have heart trouble and cannot stand scenes, and so I went out to keep calm."

"Oh, there was no scene," replied the sculptor. "It was an act in three kicks and a push. His heart trouble friend to this day thinks the sculptor is a piece of surcharged dynamite."—New York Commercial.

VALLEY VIEW, Ky., Dec. 13.—Dora Clay sent a letter to General Clay by her brother, Cleo Richardson, in which she told her husband that she wanted to come home. Mrs. Clay says she will return to her husband Thursday, if not before.

Mr. Hardin Norris, clerk of the drug store of R. Shoemaker, Perry, Ill., says: "A man came into our store the other day and said, 'I want a bottle of that stuff that saves children's lives.' I read in the News about it. The children may get sick when we can not get the doctor quick enough. It's the medicine you sell for croup." He alluded to Chamberlain's Cough Remedy and bought a bottle before he left the store."

CHICAGO, Dec. 13.—A fire originating in the basement of a 6-story building yesterday caused a loss of over \$50,000. The flames started in the boiler room and spread rapidly. The first floor, which was occupied by the E. H. Sargent Drug company, was partially destroyed. This firm suffered a loss of \$27,000. Losses to other tenants and damage to the building bring the total up to \$50,000.

Law Invalid.

Ohio Act Which Assessed Arbitrary Damages For Assault by a Mob.

CLEVELAND, Dec. 13.—The law giving damages to persons assaulted or killed by mobs has been declared unconstitutional by the circuit court in the case of J. W. Caldwell against the county.

Caldwell claimed \$1,000 because he was injured by a mob during the Brown strike. The act fixed the damages arbitrarily at \$500 for an assault, \$1,000 for serious injury and \$5,000 for death. The court declared that when a man was injured, but not seriously enough to be entitled to \$1,000, the act in effect made him a present of the difference between his just dues and \$1,000. The legislature, the court said, would not authorize taxes for purposes of making presents.

THE AMERICAN MONTHLY REVIEW OF REVIEWS

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, the economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five continents; the contributed articles furnish the character sketches of the man of the month, and give timely discussions by authorities on any question of immediate serious import.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged in the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable," "is simply invaluable," "is a generous library in itself," "is a historical cyclopedia of the world," "the best means of aid for a busy man," "the best periodical of the kind we have ever had," "a triumph of editorial genius," "the world under a field-glass," etc., etc.

McCLURE'S MAGAZINE

FOR THE COMING YEAR

Some Notable Features

CHAS. A. DANA'S REMINISCENCES
These reminiscences contain more unpublished war history than any other book except the Government publications. Mr. Dana was intimately associated with Lincoln, Stanton, Grant, Sherman, and the other great men of the Civil War. He had the confidence of the President and his great War Secretary, and he was sent on many important missions to make important investigations in the army. Lincoln called him "The Eyes of the Government at the Front." Everywhere through these memoirs are bits of Secret History and Fresh Revelations of Great Men. These Reminiscences will be illustrated with many rare and unpublished War Photographs from the Government collection, which now contain over 3,000 negatives of almost priceless value.

The Christmas Number contains a complete Short Story by Rudyard Kipling entitled "The Tomb of His Ancestors," a tale of a clouded Tiger, an officer in the Indian army, and a rebellious tribe. We have in hand also a New Ballad, a powerful, grim, moving song of War Ships. It will be superlatively illustrated. Mr. Kipling will be a frequent contributor.

ANTHONY HOPE'S NEW ZENDA NOVEL
Rudyard Kipling, Robert Barr, William Allen White, Ian MacLaren, Octave Thanet, Stephen Crane, and many others, the best story writers in the world, will contribute to McCLURE'S during the coming year.

MARK TWAIN
Mark Twain contributes an article in his old manner, describing his voyage from India to South Africa. The illustrations are by A. B. Frost and Peter Newell, and are as droll and humorous as the article itself. Another: His Ballroom and his Expedition from materials furnished by the brother of Mr. Strindberg, André's companion. Seen Hiding in a Capered Asia, a story of remarkable adventure and endurance. Lander in Tibet. His own story. He was captured, tortured and finally escaped to India. Jackson in the Far North. CHAS. A. DANA'S REMINISCENCES
These reminiscences contain more unpublished war history than any other book except the Government publications. Mr. Dana was intimately associated with Lincoln, Stanton, Grant, Sherman, and the other great men of the Civil War. He had the confidence of the President and his great War Secretary, and he was sent on many important missions to make important investigations in the army. Lincoln called him "The Eyes of the Government at the Front." Everywhere through these memoirs are bits of Secret History and Fresh Revelations of Great Men. These Reminiscences will be illustrated with many rare and unpublished War Photographs from the Government collection, which now contain over 3,000 negatives of almost priceless value.

The Christmas Number contains a complete Short Story by Rudyard Kipling entitled "The Tomb of His Ancestors," a tale of a clouded Tiger, an officer in the Indian army, and a rebellious tribe. We have in hand also a New Ballad, a powerful, grim, moving song of War Ships. It will be superlatively illustrated. Mr. Kipling will be a frequent contributor.

ANTHONY HOPE'S NEW ZENDA NOVEL
Rudyard Kipling, Robert Barr, William Allen White, Ian MacLaren, Octave Thanet, Stephen Crane, and many others, the best story writers in the world, will contribute to McCLURE'S during the coming year.

Two Pained Questions Answered.
What is the use of making making a better article than your competitor if you can not get a better price for it? Ans.—As there is no difference in the price the public will buy only the better, so that while our profits may be smaller on a single sale they will be much greater in the aggregate.

How can you get the public to know your make is the best?

If both articles are brought prominently before the public both are certain to be tried and the public will very quickly pass judgment on them and use only the better one.

This explains the large sale on Chamberlain's Cough Remedy. The people have been using it for years and have found that it can always be depended upon. They may occasionally take up with some fashionable novelty put forth with exaggerated claims, but are certain to return to the one remedy that they know to be reliable, and for coughs, colds and croup there is nothing equal to Chamberlain's Cough Remedy. For sale by C. W. Milhous.
